

ANDMAR

SUSTAINABLE, INNOVATIVE, CONNECTED

BUILT FOR THE FUTURE

INSPIRED BY COMMUNITY, SMART DESIGN & SUSTAINABILITY

“Proving sustainable architecture can be achieved without compromising design, Andmar stands as a testament to seamlessly blending environmental consciousness with impeccable craftsmanship. Weaving together the elegant lines of Art Deco and the warmth of West Coast wood, Andmar harmoniously integrates eco-friendly principles with timeless design elements.”

Nestled against Chilliwack’s Promontory Mountain, Andmar cultivates an authentic connection to its natural surroundings, inspiring residents to redefine the meaning of community. Proudly developed by the award-winning team behind Malloway Village, Skynest, Englewood Village, and Englewood Courtyard, Andmar represents a fusion of contemporary living and social responsibility.

More than just a residential development, Andmar is an inspirational master-planned community featuring eleven distinct mixed-use buildings. Designed to surpass current energy-based building standards, each meticulously crafted studio, one, and two-bedroom condo promises to elevate every facet of your daily life.

Andmar aims to be a modern blueprint of sustainability, innovation, and connectivity, shaping a vibrant epi-center in the heart of Sardis. Serving as a dynamic hub to work, dine and explore, you’ll be surrounded by an array of possibilities to take home further.

Featuring pedestrian-friendly streets lined with environmentally conscious stores and local businesses, including renowned Nature’s Fare Organic Market, Pure Pharmacy, restaurants, breweries, cafes, offices, specialized retail, and more. Here, life unfolds seamlessly in harmony with nature.

As Andmar evolves, it will introduce purpose-driven spaces for live performances, group yoga, art exhibits, farmers market, and community center, enriching residents’ lives with unique experiences and fostering a sense of community like no other.
